

Please do not take K-Love off the air. Our community is enriched by the presence of this station. Our community will be less positively influenced without the presence of K-Love. With the level of drugs and alcohol in our town, we need all the positive uplifting influences we can get. K-Love plays encouraging music, not only to the Christian listener but to many community members who just happen to tune in. Please reconsider not allowing LPFM stations to take priority over K-Love. I am a supporter of K-Love and believe in its power to change people.
